Website updates

Fixed the agenda link on the POA Board meeting icon on website. 2/29/24. New link takes you to YouTube channel to see all meetings where you can view at your convenience.

Added recordings of Lakes and Beaches Meetings

Added recordings of Security/Technology Meeting

RCC summary posted on website 2/26/2024.

Committees if you have a meeting, the agenda, time, place, and date need to be posted at least 24 hours prior. Preferably a week before so I have time to post in Mailchimp, Face Book, and website. Once you have the meeting, the recording will be posted within a week. If you want to use the AI summary for meeting from the recording, you can send to me to post on website. The AI summary does need to be reviewed because there can be some misinterpretations. It's up to you as the chair to get information to me for publications. We must have all meetings documented to keep Property Owners informed. The documentation needs to have members present, any motions and results of the motions, pass, fail or tabled.

Goal is to have website updated regularly and accurately.

Going to have webmaster upload all documents, recordings, updates etc. All committee reports, recordings, minutes, agendas, etc. that would go onto the website goes to Communications Chair then to web master.

Emails

1. Request to be removed from Mailchimp due to no longer being a property owner.
2. New ballot item
3. Pictures of RVN projects

4. Two request to address the Board ballot for 1% increase on sale of house.
5. Concern about unattended burning brush piles
6. Realtor having trouble posting a listing.

****Mock Election the week of April 2-5 at POA office. Come in and vote. This is a chance to test the scantron to accuracy and efficiency in counting ballots.**
