

April Roads Report

The ballot item to fund roads repair and infrastructure did not pass in September 2023.

To mill and repave 1 continuous mile of road is ~\$235,000. Base repair is additional. The past roads budget is not enough to repair 1 mile of roads. There are ~40 miles of roads in Raintree.

Ballot items for additional funding will be resubmitted for the September 2024 annual election. Please spread the word to vote YES if you want the roads repaired and maintained.

Repairs to the Autumn and Spring Lake Damns may be necessary for the DNR certification. Maintenance has been working on sealing the cracks on the dam roads. Denny is waiting on quotes.

Only items where roads are impassable will be addressed.

Other areas of watch are:

Collapsed Culvert Pipe on Duffer

Section of Elm Dr.

5744 Forest Dr.
